

Absol utel y

Missing you is killing me
But now I'm in way too deep
My heart would be shattered
Whether I stay or I leave

Not like I went in blind
Knew exactly the pain I'd find
When seeking stolen hearts
Never fully could be mine

You are all that I need
Your face all that I see
My soul disturbed
That we can never be
Until they are gone
And you and me
Can finally be
Absol utel y

So how do we handle this
Gone way further than a kiss
Can't believe they overlook
All that we haven't missed

Are we leaving blatant traces
Stick to unfamiliar far off places
Always careful but eventually
Mistakes will see their shocked faces

You are all that I need
Your face all that I see
My soul disturbed
That we can never be
Until they are gone
And you and me
Can finally be
Absol utel y

And when that knowledge falls
And they stand appalled
Are you bravely willing
To listen to the calls

That scream not from above
Impatient to be resolved
Can't you see all that I hold
Damn this must be love

You are all that I need
Your face all that I see
My soul disturbed
That we can never be
Until they are gone
And you and me
Can finally be
Absol utel y

I need you with me
